

Frame Shot Pro

With Blue Pill Inside

Frame Shot Pro w/Blue Pill Inside opens unique possibilities of storing and recalling camera pre-sets. Instead of using preset names you can capture frames from your cameras and display those on the color screens. Seamlessly integrates with PTZ Pro, PTZ View and PTZ Extreme becoming a part of your robotic camera control system.

SKAARHOJ Universal Controllers supports more than 120 different devices, and counting! Check out our website's "Device Core" section, to see what can be controlled at <https://devices.skaarhoj.com/>. The flexible User Configuration makes it possible to assign and add the functionality you need from the controller. All controllers are IP-based, and can have Remote Control with PoE. All SKAARHOJ products are designed and built in Denmark.
